EU Declaration of Conformity — Regulation (EU) 2025/40, Annex VIII

|                 |                                                |
|-----------------|------------------------------------------------|
| Declaration no. | 83525861c0ecd83c-60a9-4ba6-af84-d205fc06bdba-1 |
| Issue date      | 08/03/2026                                     |

01 Unique identification of the packaging

|               |          |
|---------------|----------|
| Internal code | 83525861 |
|---------------|----------|

02 Manufacturer Information

|                    |                                                          |
|--------------------|----------------------------------------------------------|
| Full company name  | Craemer Holding GmbH                                     |
| Registered address | Brocken Straße 1, 33442 Herzebrock-Clarholz, Deutschland |
| Contact — email    | guido.behrens@craemer.com                                |
| Roles              | Producer and Manufacturer                                |
| Business units     | Craemer GmbH                                             |

03 Declaration of sole responsibility

Craemer Holding GmbH declares on its sole responsibility that the packaging described in this declaration meets the applicable requirements of Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste (PPWR).

## 04 Object of the declaration

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| Packaging level         | Primary                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Article reference       | Not set                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Packaging Description   | The E3 / E3-5 industrial pallet with six integrated reinforcing profiles delivers top performance and can be used across various industries in a wide range of applications. Thanks to its thick walls and extremely robust construction, the E3 / E3-5 plastic pallet is particularly reliable and shock-resistant, and its high load capacity makes it easily usable in heavy-duty applications. The straight center runners without any offsets or notches ensure a strong connection to the pallet body, reliably preventing stress fractures or cracks in the runners. The heavy-duty pallet impresses as a durable solution for everyday use – from automated conveyor technology to high-bay warehousing. |

### 04.1 Packaging Components

Conformity is declared for the packaging as a whole. Components are listed for identification and traceability only; their individual assessment is recorded in the technical documentation.

| Name                                       | #     | Internal code | Material       |

| Versteifungsprofil<br>2x27x872mm für E3    | 2.00  | 88952232      | Metal / Steel  |

## 05 Statement of conformity

---

The object of this declaration is in conformity with the relevant Union harmonisation legislation: Regulation (EU) 2025/40 (OJ L, 2025/40, 22.1.2025), in respect of the applicable requirements laid down in or pursuant to Articles 5 to 12, as identified in section 05.1. No other Union acts are covered by this declaration.

## 05.1 Requirements applicability and conformity (Art. 5–12)

Conformity as at 12 August 2026. Conformity is declared for the packaging as a whole; the components are listed under point 4.1 for traceability.

| Requirement                                           | Status             |
|-------------------------------------------------------|--------------------|
| Art. 5 — Substance restrictions (heavy metals & PFAS) | Conform            |
| Art. 6 — Recyclability                                | Conform            |
| Art. 7 — Recycled content in plastic packaging        | Conform            |
| Art. 8 — Bio-based feedstock in plastic packaging     | Not yet applicable |
| Art. 9 — Compostable packaging                        | Not applicable     |
| Art. 10 — Packaging minimisation                      | Conform            |
| Art. 11 — Reusable packaging                          | Not yet applicable |
| Art. 12 — Labelling of packaging                      | Conform            |

## 06 References to standards and technical specifications

## 07 Notified body

Not applicable. The conformity assessment was carried out under Module A (internal production control) in accordance with Article 38 and Annex VII of Regulation (EU) 2025/40. No notified body was involved.

## 08 Additional information

### Regulatory statement

This document is a declaration of conformity prepared in the context of Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste (PPWR). The undertaking issuing this declaration states that the packaging and the packaging components described herein are placed on the market in accordance with the applicable obligations, to the extent reflected in the technical documentation and records maintained under the PPWR.

| Packaging Description   | The E3 / E3-5 industrial pallet with six integrated stiffening profiles delivers top performance and can be used across industries in a wide range of applications. Thanks to its thick walls and extremely robust construction, the E3 / E3-5 plastic pallet is particularly reliable and shock-resistant, and with its high load capacity, it can be easily used in heavy-duty applications. The straight center runners without any setbacks or notches ensure a strong connection to the pallet body, reliably preventing load breaks or cracks in the runners. The heavy-duty pallet impresses as a durable solution in daily use—from automated conveyor technology to high-bay warehousing. |

### 04.1 Packaging Components

Conformity is declared for the packaging as a whole. Components are listed for identification and traceability only; their individual assessment is recorded in the technical documentation.

| Name                                       | #     | Internal code | Material       |

| Versteifungsprofil<br>2x27x872mm für E3    | 2.00  | 88952232      | Metal / Steel  |

## 05 Statement of conformity

---

The object of this declaration is in conformity with the relevant Union harmonisation legislation: Regulation (EU) 2025/40 (OJ L, 2025/40, 22.1.2025), in respect of the applicable requirements laid down in or pursuant to Articles 5 to 12, as identified in section 05.1. No other Union acts are covered by this declaration.

## 05.1 Requirements applicability and conformity (Art. 5–12)

Conformity as at 12 August 2026. Conformity is declared for the packaging as a whole; the components are listed under point 4.1 for traceability.

| Requirement                                           | Status             |
|-------------------------------------------------------|--------------------|
| Art. 5 — Substance restrictions (heavy metals & PFAS) | Conform            |
| Art. 6 — Recyclability                                | Conform            |
| Art. 7 — Recycled content in plastic packaging        | Conform            |
| Art. 8 — Bio-based feedstock in plastic packaging     | Not yet applicable |
| Art. 9 — Compostable packaging                        | Not applicable     |
| Art. 10 — Packaging minimisation                      | Conform            |
| Art. 11 — Reusable packaging                          | Not yet applicable |
| Art. 12 — Labelling of packaging                      | Conform            |

## 06 References to standards and technical specifications

## 07 Notified body

Not applicable. The conformity assessment was carried out under Module A (internal production control) in accordance with Article 38 and Annex VII of Regulation (EU) 2025/40. No notified body was involved.

## 08 Additional information

### Regulatory statement

This document is a declaration of conformity prepared in the context of Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste (PPWR). The undertaking issuing this declaration states that the packaging and the packaging components described herein are placed on the market in accordance with the applicable obligations, to the extent reflected in the technical documentation and records maintained under the PPWR.
