Packaging Description	The EURO H1 with central locking is the No. 1 among hygiene pallets for the food industry and the recognized standard in the meat industry. Suppliers in the food sector also rely on the original from Craemer, including ingredient manufacturers, other fresh product areas, and the packaging industry. The EURO H1 plastic pallet was specifically developed by Craemer in the early 1990s for the food and meat industry. Since 1993, it has carried the GS1 label (formerly EHI) and is thus widely recognized across Europe as an exchange pallet in the open Euro pallet pool. The original from Craemer is also the first hygiene pallet to be awarded the GS mark for tested safety and certified according to DIN 55423-5 and DIN 55423-6. The Dortmund Fraunhofer Institute confirms a service life of over 12 years for the EURO H1 from Craemer.
