03 Declaration of sole responsibility

Craemer Holding GmbH declares on its sole responsibility that the packaging described in this declaration meets the applicable requirements of Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste (PPWR).

04 Object of the declaration

Packaging name	Palettenbox Kubo PE hellgrau KL
Packaging internal code	82601811
Packaging level	Primary
Article reference	Not set
Packaging Description	The KUBO is the perfect alternative to the widely used Europool-DB Europool wire mesh container (Gibo) for heavy goods and components and for all applications with high demands. The new Craemer plastic box made of PE is extremely robust due to its solid construction while maintaining a low own weight. It is easy to empty, clean, and dry, guarantees corrosion-free use, is versatile, poolable, and repairable. The KUBO operates maintenance- and trouble-free on all common conveyor systems and is also suitable for automated high-bay warehouses. Thanks to its closed design, the plastic box offers optimal protection of the contents and impresses with enormous stability and good stackability. Thanks to the steel reinforcements in the bottom, the KUBO is particularly suitable for high loads. L-shaped steel profiles on the longitudinal sides of the four-way box—along with additional ribs above the entry openings—provide further impact protection against forklift tines.

04.1 Packaging Components

Conformity is declared for the packaging as a whole. Components are listed for identification and traceability only; their individual assessment is recorded in the technical documentation.
