03 Declaration of sole responsibility

Craemer Holding GmbH declares on its sole responsibility that the packaging described in this declaration meets the applicable requirements of Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste (PPWR).

04 Object of the declaration

Packaging name	Palette NP1 PE schwarz ARP 4 mm
Packaging internal code	83551201
Packaging level	Primary
Article reference	Not set
Packaging Description	The nestable plastic pallet NP1 is ideally suited for applications in trade and supermarkets, as well as across industries wherever space-saving solutions are important. Nestable pallets offer a significant volume reduction during empty transport and storage. This saves freight costs and storage space and increases cost-efficiency. The NP1 lightweight pallet is injection-molded in one piece, with nine stepped feet and locking pins in the open foot cavities on the top deck. Thanks to this well-thought-out plug-in system, the NP1 plastic pallet impresses with precise nestability. Manual un-nesting is simple and requires no force; entry openings allow for easy un-nesting with a forklift. Thanks to its robust design, the nestable NP1 lightweight pallet is particularly durable. Another advantage of the NP1 lightweight pallet is the standard equipment with the unique Palgrip® technology from Craemer: 24 injected, abrasion-resistant Palgrip® anti-slip pads on the top deck increase load security.

04.1 Packaging Components

Conformity is declared for the packaging as a whole. Components are listed for identification and traceability only; their individual assessment is recorded in the technical documentation.
