| Packaging Description   | The SB3 pallet box is available with either three runners or nine feet. The extremely robust runner or foot attachment of the one-piece manufactured SB3 ensures exceptional durability and guarantees safe tip-emptying with the runner version using a forklift rotary bracket; additional ribs over the entry openings provide the SB3 pallet box with increased impact protection against forklift tines. The seamless construction and the straight, smooth inner surfaces of the large load carrier allow for optimal filling as well as easy emptying. Cleaning and subsequent drying of the SB3 pallet box are also trouble-free. The continuous stacking ledge at the upper and lower edges additionally makes the SB3 compatible with a wide range of other pallet boxes. |

### 04.1 Packaging Components

Conformity is declared for the packaging as a whole. Components are listed for identification and traceability only; their individual assessment is recorded in the technical documentation.
