

# TC3-5 Totally Closed

Permanently Completely Closed Plastic Pallet

- Manufactured from pure PE, one-piece design
- Patented welding seam geometry for maximum impact resistance and breaking strength
- Flat and solid deck style
- Full-surface Palgrip® anti-slip top deck optionally available
- Four-way entry, chamfered openings on both sides of the runners
- Hygienic pallet, easy to clean, no cavities or recesses
- High load bearing capacity in heavy duty areas, rackable and stackable

Unique, full-surface Palgrip® anti-slip top deck for total slip resistance, securing the load even in damp conditions or inclined positions.

**Palgrip**

## Technical data<sup>\*1</sup>

**Dimensions L x W x H** <sup>\*2</sup> 47.6" x 39.7" x 6.3" (1200 x 1000 x 160 mm)

**Material** <sup>\*3</sup> PE

### Load capacities <sup>\*4</sup>

without reinforcement rods  
with 5 reinforcement rods

#### Static

16500 lbs (7500 kg)  
16500 lbs (7500 kg)

#### Dynamic

3300 lbs (1500 kg)  
4400 lbs (2000 kg)

#### In racking system

2800 lbs (1250 kg)  
4400 lbs (2000 kg)

## Characteristics

- Colors: light blue, black
- Runners: 5, unwelded
- Reinforcement rods: 0 or 5
- Temperature stability (°F): -22 to +104, briefly up to 194

## Options

- Palgrip® anti-slip top deck
- RFID Transponder
- Customized printing and numbering

<sup>\*1</sup> All technical data include characteristic features, which have been tested under specially defined conditions. Varying data may result from different conditions of usage such as loading method, prevailing temperature and length of storage time. All data and specified information are subject to change without notice. Our service team is pleased to be at your disposal to check the special requirements of your individual application.

<sup>\*2</sup> All measurements and weight indications are conversion values derived from the original metric values. The possible range of tolerance can be found in the technical drawing. All tolerances are within the accepted tolerance range as specified in the respective DIN norm. If you require more information on our tolerances please contact our sales team.

<sup>\*3</sup> Our service team is pleased to be at your disposal if you require exact information about material compositions.

<sup>\*4</sup> **Static load:** resistance to pressure on a flat ground surface and an evenly distributed load at a room temperature of approx. 68 °F. **Dynamic load:** on a forklift with an evenly distributed load at a room temperature of approx. 68 °F. **In racking system:** evenly distributed load (sacks) along the longitudinal sides. Resting on two supports for over 100 hours at a room temperature of approx. 68 °F.
