Labelling

ESD pallet

Customized printing and numbering available on request depending on quantity. Position upon consultation.

- *1 All technical data reflect characteristic features tested under specially defined conditions. Variations may occur due to different usage conditions, such as loading method, ambient temperature, and storage duration. All data and specifications are subject to change without notice. Our service team is happy to assist in reviewing the specific requirements of your individual application.
- $\hbox{*2}\quad \hbox{O\,ur service team\,is available to provide precise information about material compositions}.$
- Static load: Resistance to pressure on a flat surface with an evenly distributed load at a room temperature of approx. 68 °F.

 Dynamic load: On a forklift with an evenly distributed load at a room temperature of approx. 68 °F.

 In racking system: Evenly distributed load (E2 boxes or Euro fish boxes) along the longitudinal sides, resting on two supports for over 200 h at a room temperature of approx. 68 °F.
